## Letter of Recommendation

*To Whom It May Concern:*

*I am pleased to personally recommend Rodman Browning for consideration of employment. As company controller, I have known Rodman throughout his tenure at Padre Island Rentals. We worked in close proximity and he was extremely helpful and knowledgeable as he instructed and assisted in many varied customizations, modifications and upgrades. His creativity, resourcefulness and ability to work flexible hours were a signature to bring these to fruition. In his role as IT Director, he successfully developed several innovations which lead to an increase in revenue and overall profitability for our company.*

*Rodman is self motivated drawing on his wealth of experience and learning and is uniquely qualified and well suited for working independently. He is a proven multitasker, outlining and planning projects while simultaneously completing the details for another. He was the daily go-to person supporting all company hardware and software. His additional work assignments were many and included redesigning and maintaining our websites, designing a company intranet, assisting in authoring and layout of rental agreements and confirmation letters, brochures and maps. Comments on the text and layout of our website and the feedback on all of these have been very positive.*

*I highly recommend him for any position of employment in your company in which he may spend his passion and share his talents with others. He would make a great asset to any organization.*

*Sincerely,*

*D Geiger*
